

INSURANCE COMPANIES FOR LOW BUDGET PRODUCTIONS

The following are not endorsements or recommendations. This information is provided to assist in the search for insurance companies and brokers who specialize in providing coverage to low budgets, one-time only productions, limited duration films, etc. Minimally you should inquire about rates for general liability, excess liability, workmen's comp (including working with minors), hired auto, and if relevant, fire and marine coverage, Errors and Omissions. Other types of coverage may be required if performing stunts, aircraft, pyrotechnics. Information is subject to change without notice.

Always request a copy of the Endorsement Page from your insurance carrier listing all of your locations for your records. If the location is not physically added to the Endorsement Page those locations are not actually covered on the policy should you make a claim. Have the Endorsement Page along with the Certificate of Liability sent to property owners and agencies requiring proof of insurance.
