I am a technically minded audio-visual technician and aspiring filmmaker with exceptional skills in setting up and connecting lighting and video equipment. I possess a strong understanding of all audiovisual equipment and components. I also have an ability to troubleshoot audio-visual equipment, along with an Associate's Degree in Film/Digital Cinema Production.

- Knowledge of lighting systems, audio, and video components
- Great ability to set up all equipment for scheduled event
- Excellent troubleshooting skills
- Able to work independently, along with working well with a team with little supervision
- Strong technical abilities
- Experienced with minor and major setups of lighting and video equipment
- Highly detail-focused
- Speak minimal Hindi

Work Experience

-Camera Operator: Sacramento River Cats - West Sacramento, CA April 2023 to Present
